BACKGROUND

After joining the firm in 2008, Greg has provided both audit and tax services to a variety of clients and industries. He believes this mixed experience has helped him develop a more well-rounded skill set and allows him to see the bigger picture. “It’s important to understand that how we treat transactions can impact clients, whether they are trying to minimize income for tax purposes or want to maximize reported earnings for financial statements.”

Greg enjoys working with large groups where he can have regular contact and build strong relationships. Plus, it’s satisfying for him to see growth in these groups, and to continue to work with them as their transaction complexity increases.

Serving as an ongoing resource for clients, Greg recognizes that he needs to be on the leading edge of accounting and tax legislation to help clients implement change.
