#### BACKGROUND

Salina joined the firm in 2008, after an internship here in the summer of 2007 and earning her BS in General Science and Accounting from Portland State University. Through her varied experiences with family in the hotel, medical and accounting industries, she realized she had a keen interest in helping clients work through the planning and development stages of their businesses, and an accounting career was a great way for her to do that.

A competitive soccer player for most of her life, Salina brings that same passion and focus to her work today. Through working with the same clients over several years, Salina enjoys their confidence in her abilities and her role as a trusted advisor. She is also active in the firm's recruiting program, involved with the firm's Medical/Dental industry group efforts, and is a frequent speaker on various tax issues affecting businesses.
